[Insert statement of urgency and significance for why this right relates to AI.]

Sectors

The contributors of the *AI & Human Rights Index* have identified the following sectors as responsible for both using AI to protect and advance this human right.

- ENV: Environmental and Energy
- GOV: Government and Public Sector
- SOC: Social Services and Housing
- WORK: Employment and Labor

AI's Potential Violations

[Insert 300- to 500-word analysis of how AI could violate this human right.]

AI's Potential Benefits

[Insert 300- to 500-word analysis of how AI could advance this human right.]

Human Rights Instruments

Convention on the Rights of Persons with Disabilities (2006)

G.A. Res. 61/106, Convention on the Rights of Persons with Disabilities, U.N. Doc. A/RES/61/106 (Dec. 13, 2006)

Article 19

> States Parties to the present Convention recognize the equal right of all persons with disabilities to live in the community, with choices equal to others, and shall take effective and appropriate measures to facilitate full enjoyment by persons with disabilities of this right and their full inclusion and participation in the community, including by ensuring that:
> (a) Persons with disabilities have the opportunity to choose their place of residence and where and with whom they live on an equal basis with others and are not obliged to live in a particular living arrangement;
> (b) Persons with disabilities have access to a range of in-home, residential and other community support services, including personal assistance necessary to support living and inclusion in the community, and to prevent isolation or segregation from the community;
> (c) Community services and facilities for the general population are available on an equal basis to persons with disabilities and are responsive to their needs.
